SPECIAL REPORT: STRATEGIC INNOVATION

Building Strategic Innovation Muscle

24 The Eight Core Principles of Strategic Innovation

A company's future depends on the new directions it explores and develops today — and that requires different structures and capabilities from incremental innovation.
By Gina O'Connor and Christopher R. Meyer

31 Is a Venture Studio Right for Your Company?

A structured approach to building multiple ventures can unlock innovation, but leaders must assess strategic fit, resources, and long-term commitment before diving in.
By Constanze Coelsch-Foisner and Fiona E. Murray

38 The Hidden Power of Messy Teams

Collaborators who begin with an ambiguous problem may get better innovation results than teams that define a problem at the outset.
By Johnathan R. Cromwell and Jean-François Harvey

RADAR

5 Fast Takes on Fresh Ideas

Research on socially central leaders, how insults can improve your brand, the value of flexibility, and Liberty Mutual's CIO on developing talent and GenAI.

FRONTIERS

9 Validating LLM Output? Prepare to Be 'Persuasion Bombed'

Research demonstrates how generative AI ramps up the rhetorical pressure on users who question the AI's output. By Steven Randazzo, Akshita Joshi, Kate Kellogg, Hila Lifshitz, and Karim R. Lakhani

12 How to Profit From Retro-Innovation

Smart companies can create value now by reviving products from the past and reimagining them for today's customers. By Vijay Govindarajan, Tojin T. Eapen, and Gautham Vadakkepatt

15 Why Salespeople Fear Pitching Radical Innovation

Salespeople can feel out of their depth when selling breakthrough products. Managers can help by creating a more collaborative sales culture. By Bianca Schmitz, Olaf Plötner, and Johannes Habel

18 Enshittification Comes to 'Smart' Products

Companies that exploit digital control of their products to extract additional value risk degrading customers' experiences and sense of ownership. By Andrew Park, David R. Hannah, Jan Kietzmann, and Leyland Pitt

20 How to Use Generative AI for Pricing

LLMs can make sophisticated pricing recommendations, but effective use requires users to provide well-crafted prompts and understand the tools' limitations. By Maxime C. Cohen

FEATURES

42 Why Digital Dexterity Is Key to Transformation

COVER STORY: To make headway with digital transformation, executives are redefining the challenge: Build a workforce to take advantage of new technologies. By Linda Hill, Sunand Menon, Ann Le Cam, Karina Grazina, and Lydia Begag

50 What AI Can Teach Us About Designing Better KPIs

Machine learning research offers four proven strategies to prevent people from gaming measures of organizational performance. By Balázs Kovács

56 Learn From Outcomes to Promote Growth

A new framework for understanding why initiatives succeed or fail can help leaders make better decisions about the future of their organizations. By Vladyslav Biloshapka and Oleksiy Osiyevskyy

61 Build Business Advantage With Real-Time Decision-Making

Stop running your business on yesterday's data. Real-time data, empowered employees, and agile systems can lead to higher margins. By Peter Weill and Elizabeth van den Berg

66 Stay Ahead of Geopolitical Supply Chain Risks

A practical framework for mitigating the disruptive effects of international conflicts can help companies protect their supply chains. By Morris A. Cohen, Shiliang Cui, Vinayak Deshpande, Ricardo Ernst, Arnd Huchzermeier, Daniela Muhaj, David Pyke, and Andy A. Tsay

72 Why Mergers Fail and How to Spot Trouble Early

Nearly half of all mergers end in a breakup. A new research-backed framework can help leaders diagnose which deals are built to last and which ones will likely fall apart. By Henrik Cronqvist and Désirée-Jessica Pély

77 A Smarter Approach to Measuring Customer Experience

Many companies collect more customer experience data points than they need or can use effectively. Here's how to focus on the metrics that matter. By Charles H. Patti, Maria M. van Dessel, and Steven W. Hartley

COLUMNS

82 Turn Customer Complaints Into Innovation Blueprints

You can reframe client grievances as an opportunity instead of a burden. At one Swiss hospital, complaints have become a pipeline for improvements to the customer experience. By Lohyd Terrier and Béatrice Schaad Noble

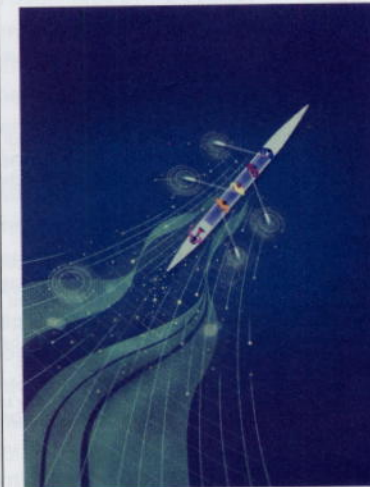

88 What Makes a 'Listening Tour' Meaningful?

Coaching for the Future-Forward Leader By Sanyin Siang
